

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended): A method in an electronic auction for permitting simultaneous submission of bids on multiple different items using a single screen image, said method comprising the steps of:
simultaneously displaying, at a computer network, using [[a]] said single screen image, a plurality of different items offered for auction, wherein said plurality of different items is offered for auction using different ones of a plurality of auction types, and wherein at least two different ones of said plurality of auction types are utilized when simultaneously displaying said plurality of different items using said single screen image;
permitting entry of a different bid for each of a plurality of said plurality of different items using said single screen image; and
simultaneously submitting, over said computer network, each said different bid for each of said plurality of said plurality of different items from said single screen image.
2. (Canceled)
3. (Currently Amended): The method according to claim [[2]] 1, wherein said plurality of auction types includes an interactive auction.
4. (Currently Amended): The method according to claim [[2]] 1, wherein said plurality of auction types includes a single auction.
5. (Currently Amended): The method according to claim [[2]] 1, wherein said plurality of auction types includes a priced auction.
6. (Previously Presented): The method according to claim 1, further comprising the steps of:
offering a first one of said plurality of different items for auction using a priced auction;
offering a second one of said plurality of different items for auction using an interactive auction;
and
offering a third one of said plurality of different items for auction using a single auction.

7. (Previously Presented): The method according to claim 1, wherein said simultaneously displaying comprises displaying, utilizing said single screen image, an offer of at least one of said plurality of different items for auction using a single auction.

8. (Currently Amended): The method according to claim 1, wherein said simultaneously displaying comprises:

displaying, utilizing said single screen image, an offer of a first one of said plurality of different items for auction using a single auction;

displaying, utilizing said single screen image, an offer of a second one of said plurality of different items for auction using a priced auction; and

displaying, utilizing said single screen image, an offer of a third one of said plurality of different items for auction using an interactive auction[.];

wherein each said offer of said first, second, and third ones of said plurality of different items are simultaneously displayed utilizing said single screen image.

9. (Previously Presented): The method according to claim 1, further comprising the steps of:

receiving said different bid submitted for each of said plurality of said plurality of different items using said single screen image; and

simultaneously displaying a confirmation for said different bid submitted for each of said plurality of said plurality of different items using a second single screen image.

10. (Previously Presented): The method according to claim 1, further comprising the step of simultaneously submitting a different bid for each one of a first plurality of said plurality of different items and submitting a modification for each one of a second plurality of said plurality of different items.

11. (Previously Presented): The method according to claim 1, further comprising the step of simultaneously submitting a different bid for each one of a first plurality of said plurality of different items and cancelling each one of a second plurality of said plurality of different items.

12. (Previously Presented): The method according to claim 1, further comprising the step of simultaneously submitting a different bid for each one of a first plurality of said plurality of different items and revising each one of a second plurality of said plurality of different items.

13. (Original): The method according to claim 3, further comprising the step of permitting an entry of a proxy for at least one of said plurality of said plurality of different items utilizing said single screen image.

14. (Original): The method according to claim 13, further comprising the step of simultaneously submitting said bid for each of said plurality of said plurality of different items and said proxy for at least one of said plurality of said plurality of different items utilizing said single screen image.

15. (Original): The method according to claim 1, wherein the step of simultaneously displaying, using a single screen image, a plurality of different items offered for auction further comprises the step of simultaneously displaying, using said single screen image, a plurality of different offerings offered for auction, wherein an offering includes one or more items.

16. (Previously Presented): The method according to claim 15, further comprising the steps of:
selecting a plurality of said plurality of different offerings to display to a particular user; and
simultaneously displaying, using said single screen image, only said selected plurality of said plurality of different offerings.

17. (Currently Amended): An electronic auction system for permitting simultaneous submission of bids on multiple different items using a single screen image, comprising:

[[a]] said single screen image for simultaneously displaying a plurality of different items offered for auction;

a plurality of auction types, wherein said plurality of different items is offered for auction using different ones of said plurality of auction types and wherein at least two different ones of said plurality of auction types are utilized when simultaneously displaying said plurality of different items using said single screen image;

means for permitting entry of a different bid for each of a plurality of said plurality of different items using said single screen image; and

means for simultaneously submitting each said different bid for each of said plurality of said plurality of different items from said single screen image.

18. (Canceled)

19. (Currently Amended): The system according to claim [[18]] 17, wherein said plurality of auction types includes an interactive auction.

20. (Currently Amended): The system according to claim [[18]] 17, wherein said plurality of auction types includes a single auction.

21. (Currently Amended): The system according to claim [[18]] 17, wherein said plurality of auction types includes a priced auction.

22. (Previously Presented): The system according to claim 17, further comprising:

said single screen image for offering a first one of said plurality of different items for auction using a priced auction;

said single screen image for offering a second one of said plurality of different items for auction using an interactive auction; and

said single screen image for offering a third one of said plurality of different items for auction using a single auction.

23. (Previously Presented): The system according to claim 17, further comprising said single screen image for displaying an offer of at least one of said plurality of different items for auction using a single auction.

24. (Currently Amended): The system according to claim 17, further comprising:

said single screen image for displaying an offer of a first one of said plurality of different items for auction using a single auction;

said single screen image for displaying an offer of a second one of said plurality of different items for auction using a priced auction; and

said single screen image for displaying an offer of a third one of said plurality of different items for auction using an interactive auction[.];

wherein each said offer of said first, second, and third ones of said plurality of different items are simultaneously displayed utilizing said single screen image.

25. (Previously Presented): The system according to claim 17, further comprising:

said single screen image for receiving said different submitted bid for each of said plurality of said plurality of different items using said single screen image; and

a second single screen image for simultaneously displaying a confirmation for said different submitted bid for each of said plurality of said plurality of different items.

26. (Previously Presented): The system according to claim 17, further comprising said single screen image for simultaneously submitting a different bid for each one of a first plurality of said plurality of different items and submitting a modification for each one of a second plurality of said plurality of different items.

27. (Previously Presented): The system according to claim 17, further comprising said single screen image for simultaneously submitting a different bid for each one of a first plurality of said plurality of different items and for cancelling each one of a second plurality of said plurality of different items.

28. (Previously Presented): The system according to claim 17, further comprising said single screen for simultaneously submitting a different bid for each one of a first plurality of said plurality of different items and for revising each one of a second plurality of said plurality of different items.

29. (Original): The system according to claim 19, further comprising said single screen image permitting an entry of a proxy for at least one of said plurality of said plurality of different items.

30. (Original): The system according to claim 29, further comprising said single screen image for simultaneously submitting said bid for each of said plurality of said plurality of different items and said proxy for at least one of said plurality of said plurality of different items.

31. (Original): The system according to claim 17, further comprising said single screen image for simultaneously displaying a plurality of different offerings offered for auction, wherein an offering includes one or more items.

32. (Previously Presented): The method according to claim 31, further comprising:

means for selecting a plurality of said plurality of different offerings to display to a particular user; and

said single screen image for simultaneously displaying only said plurality of said plurality of different offerings.

33. (Currently Amended): A computer readable medium including an electronic auction for permitting simultaneous submission of bids on multiple different items using a single screen image, said computer readable medium comprising:

~~instructions~~ ~~instruction means~~ for simultaneously displaying, using ~~[[a]]~~ said single screen image, a plurality of different items offered for auction, wherein said plurality of different items is offered for auction using different ones of a plurality of auction types, and wherein at least two different ones of said plurality of auction types are utilized when simultaneously displaying said plurality of different items using said single screen image;

~~instructions~~ ~~instruction means~~ for permitting entry of a different bid for each of a plurality of said plurality of different items using said single screen image; and

~~instructions~~ ~~instruction means~~ for simultaneously submitting each said different bid for each of said plurality of said plurality of different items from said single screen image.

34. (Canceled)

35. (Currently Amended): The computer readable medium according to claim ~~[[34]]~~ 33, wherein said plurality of auction types includes an interactive auction.

36. (Currently Amended): The computer readable medium according to claim ~~[[34]]~~ 33, wherein said plurality of auction types includes a single auction.

37. (Currently Amended): The computer readable medium according to claim ~~[[34]]~~ 33, wherein said plurality of auction types includes a priced auction.

38. (Currently Amended): The computer readable medium according to claim 33, further comprising:

~~instructions~~ ~~instruction means~~ for offering a first one of said plurality of different items for auction using a priced auction;

~~instructions~~ ~~instruction means~~ for offering a second one of said plurality of different items for auction using an interactive auction; and

~~instructions~~ ~~instruction means~~ for offering a third one of said plurality of different items for auction using a single auction.

39. (Currently Amended): The computer readable medium according to claim 33, further comprising ~~instructions~~ ~~instruction-means~~ for displaying, utilizing said single screen image, an offer of one of said plurality of different items for auction using a single auction.

40. (Currently Amended): The computer readable medium according to claim 33, further comprising:
~~instructions~~ ~~instruction-means~~ for displaying, utilizing said single screen image, an offer of a first one of said plurality of different items for auction using a single auction;
~~instructions~~ ~~instruction-means~~ for displaying, utilizing said single screen image, an offer of a second one of said plurality of different items for auction using a priced auction; and
~~instructions~~ ~~instruction-means~~ for displaying, utilizing said single screen image, an offer of a third one of said plurality of different items for auction using an interactive auction[[.]]; wherein each said offer of said first, second, and third ones of said plurality of different items are simultaneously displayed utilizing said single screen image.

41. (Currently Amended): The computer readable medium according to claim 33, further comprising:
~~instructions~~ ~~instruction-means~~ for receiving said different bid submitted for each of said plurality of said plurality of different items using said single screen image; and
~~instructions~~ ~~instruction-means~~ for simultaneously displaying a confirmation for said different bid submitted for each of said plurality of said plurality of different items using a second single screen image.

42. (Currently Amended): The computer readable medium according to claim 33, further comprising ~~instructions~~ ~~instruction-means~~ for simultaneously submitting a different bid for each one of a first plurality of said plurality of different items and submitting a modification for each one of a second plurality of said plurality of different items.

43. (Currently Amended): The computer readable medium according to claim 33, further comprising ~~instructions~~ ~~instruction-means~~ for simultaneously submitting a different bid for each one of a first plurality of said plurality of different items and cancelling each one of a second plurality of said plurality of different items.

44. (Currently Amended): The computer readable medium according to claim 33, further comprising ~~instructions~~ ~~instruction-means~~ for simultaneously submitting a different bid for each one of a first plurality of said plurality of different items and revising each one of a second plurality of said plurality of different items.

45. (Currently Amended): The computer readable medium according to claim 35, further comprising instructions ~~instruction-means~~ for permitting an entry of a proxy for at least one of said plurality of said plurality of different items utilizing said single screen image.

46. (Currently Amended): The computer readable medium according to claim [[43]] 45, further comprising instructions ~~instruction-means~~ for simultaneously submitting said bid for each of said plurality of said plurality of different items and said proxy for at least one of said plurality of said plurality of different items utilizing said single screen image.

47. (Currently Amended): The computer readable medium according to claim [[34]] 33, wherein the instructions ~~instruction-means~~ for simultaneously displaying, using a single screen image, a plurality of different items offered for auction further comprises instructions ~~instruction-means~~ for simultaneously displaying, using said single screen image, a plurality of different offerings offered for auction, wherein an offering includes one or more items.

48. (Currently Amended): The computer readable medium according to claim 47, further comprising: instructions ~~instruction-means~~ for selecting a plurality of said plurality of different offerings to display to a particular user; and

instructions ~~instruction-means~~ for simultaneously displaying, using said single screen image, only said plurality of said plurality of different offerings.
